

Statement of the Cabinet Member for Customer Services

21 February 2012

Waste and Street Scene

As Members are aware the Recycling contract was to be renewed and that the tendering and assessment process was in progress at the time of last Council Meeting in December.

From those who tendered a successful bid was accepted and has been duly signed by both parties. In line with market predictions the Council will see a substantial uplift in price for recyclate. However there will not be a change in the types of recyclate collected until later in the year when the vehicle contract is renewed. Assessment is going on at the present time, of different types of vehicle to achieve maximum capacity on the rounds.

Councillor Brian Phillips
Cabinet Member for Customer Services
