SITE VISIT CRITERIA

1. The application under consideration raises specific issues in relation to matters such as scale, design, location, access or setting which can only be fully understood from the site itself.
2. The application raises an important point of planning principle which has wider implications beyond the site itself and as a result would lead to the establishment of an approach which would be applied to other applications.
3. The application involves judgements about the applicability of approved or developing policies of the Council, particularly where those policies could be balanced against other material planning considerations which may have a greater weight.
4. The application has attracted significant public interest and a visit would provide an opportunity for the Committee to demonstrate that the application has received a full and comprehensive evaluation prior to its determination.
5. There should be a majority of Members sufficiently familiar with the site to enable a decision to be made at the meeting.
6. Site visits will normally be agreed prior to Planning Committee in consultation with the Chairman or Vice-Chairman of the Planning Committee. Additional site visits may be selected following consideration of a report by the Planning Committee.
